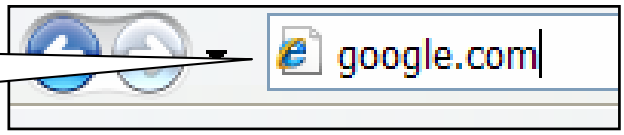
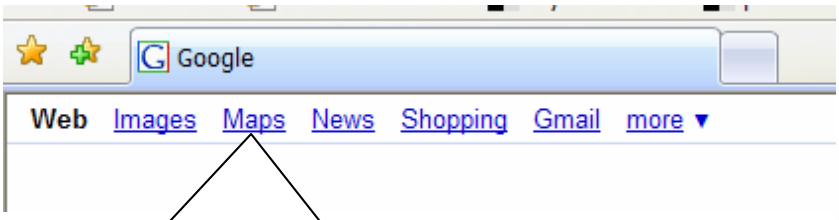
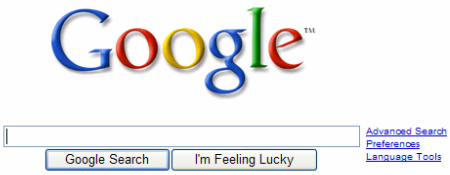
Google Maps

1. In the web address bar type:
google.com

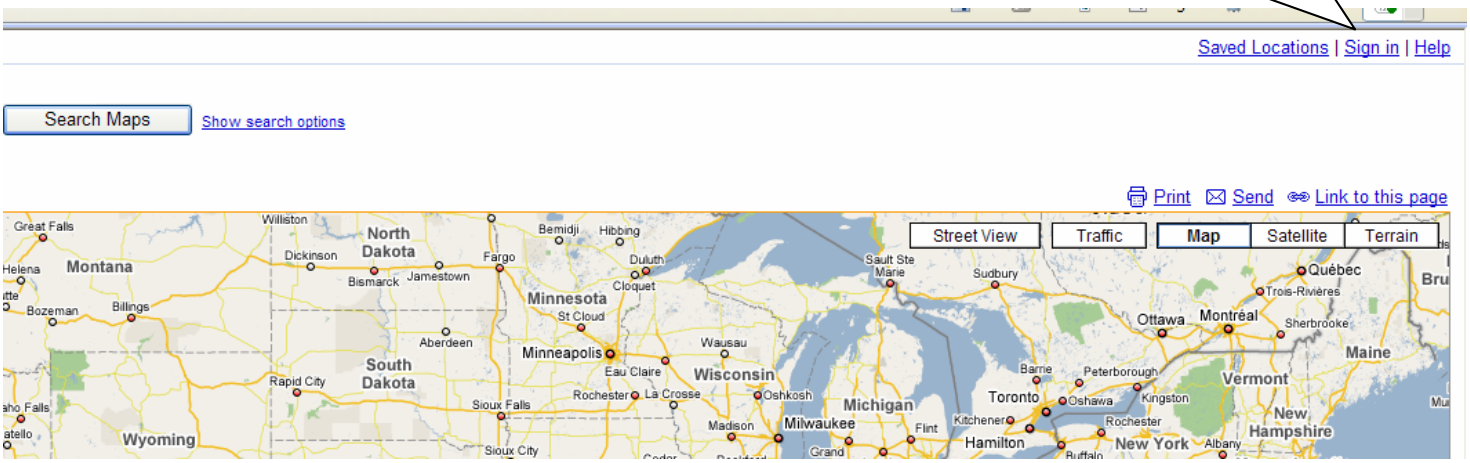




2. In the upper left hand corner click on:
MAPS

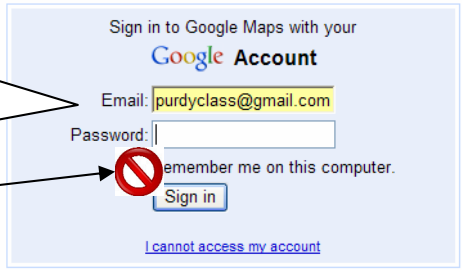


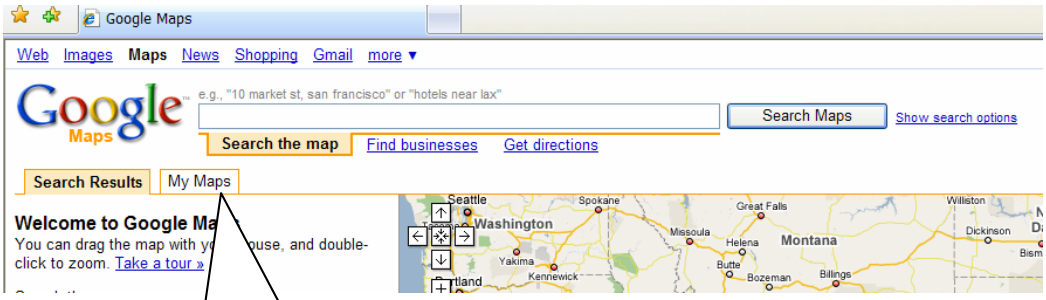
3. In the upper right hand corner click on:
Sign in



4. Sign in to the class Google Account:
Email: purdyclass@gmail.com
Password: mrspurdy

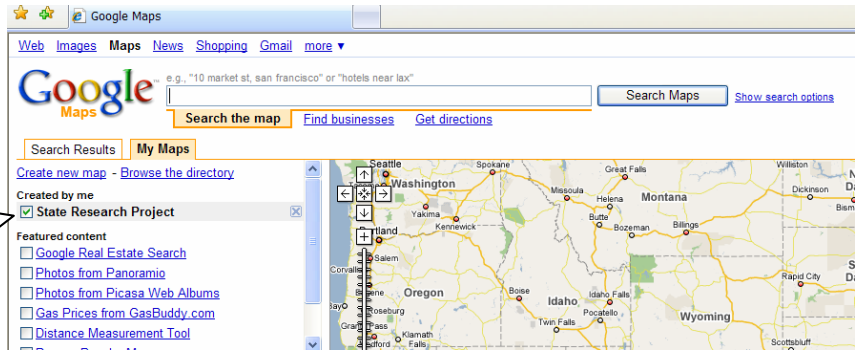
Make sure the box is **NOT** checked!





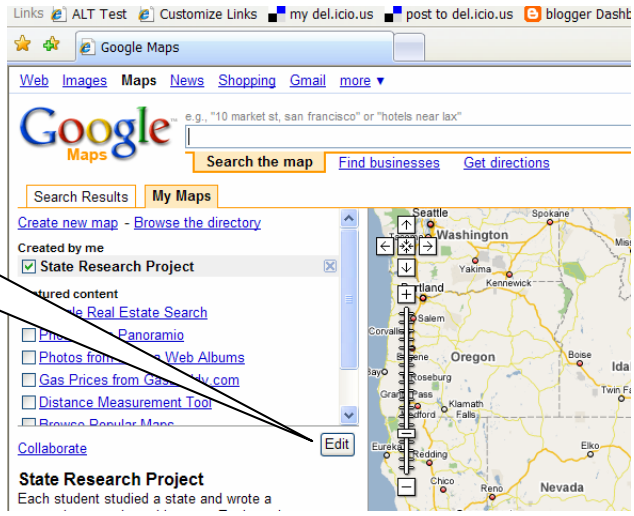
Click on MY MAPS

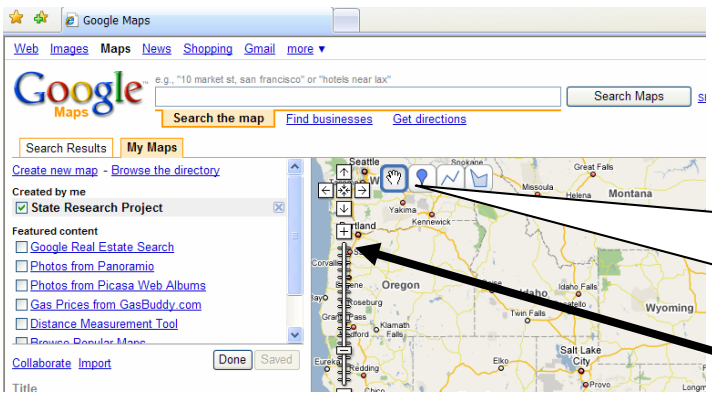
Check the box next to:
State Research Project



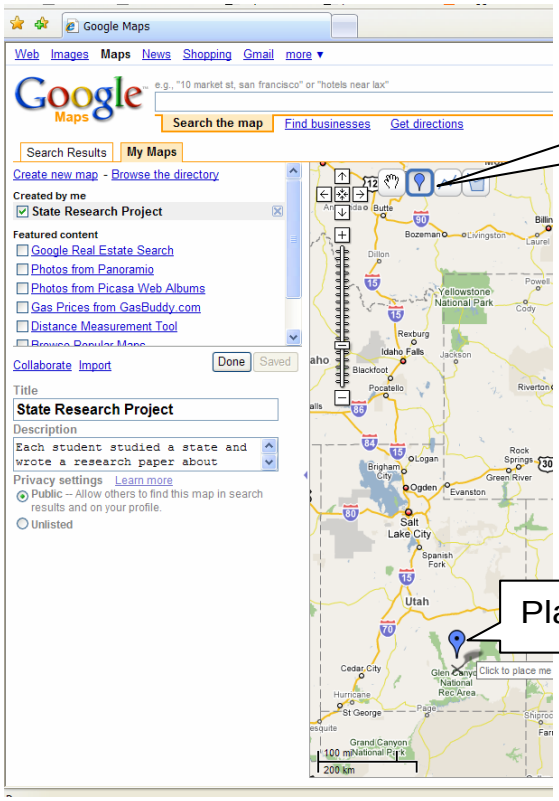
Each of you will be responsible for adding 3 “tags” for your state. A “tag” is a description of something interesting or notable about your state. For example, if I was researching Arizona, I would want to tag the Grand Canyon and tell others why this is an important geographical feature. Before you tag anything on the map, make sure you know three **areas of interest** and can write a **2-3 sentence description** about the location.

To tag a location first click on the:
Edit Button



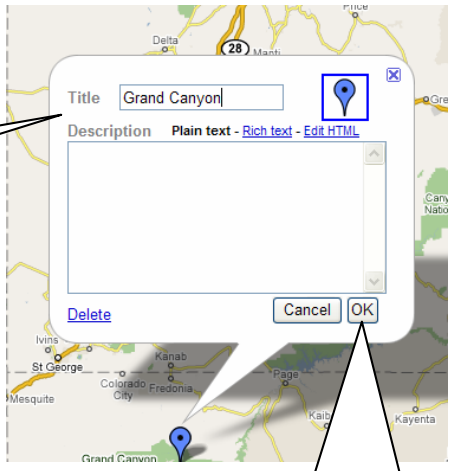


Now you will see 4 new buttons:
Click the Hand Button and drag the map around to find your state…you can also zoom in and out with the + and – signs.



Click on the blue bubble button when you are ready to mark your location

Place your blue bubble on the exact location



Once you drop your blue bubble by “un-clicking” you can Title your location and add a description. If you would like to attach a picture to your description click on “Rich text”

When you are finished with your description click ok.

After you are finished adding your location of interest, click **DONE!**
